Healthy Foods

The kids saw the new fast food, so they gave it a try. It was delicious, and they couldn't stop eating it. But soon, they ate too much and felt tired and sick. They decided they had to stop the Fast Food Monster! But how could they do it?

Healthy Foods

They came up with a **plan**. They would make a giant burger that looked like fast food but was actually healthy. They used whole grain bread, lean meat, fresh vegetables, and low-fat cheese to make the burger.
