Lesson 1
Our Planet - Earth

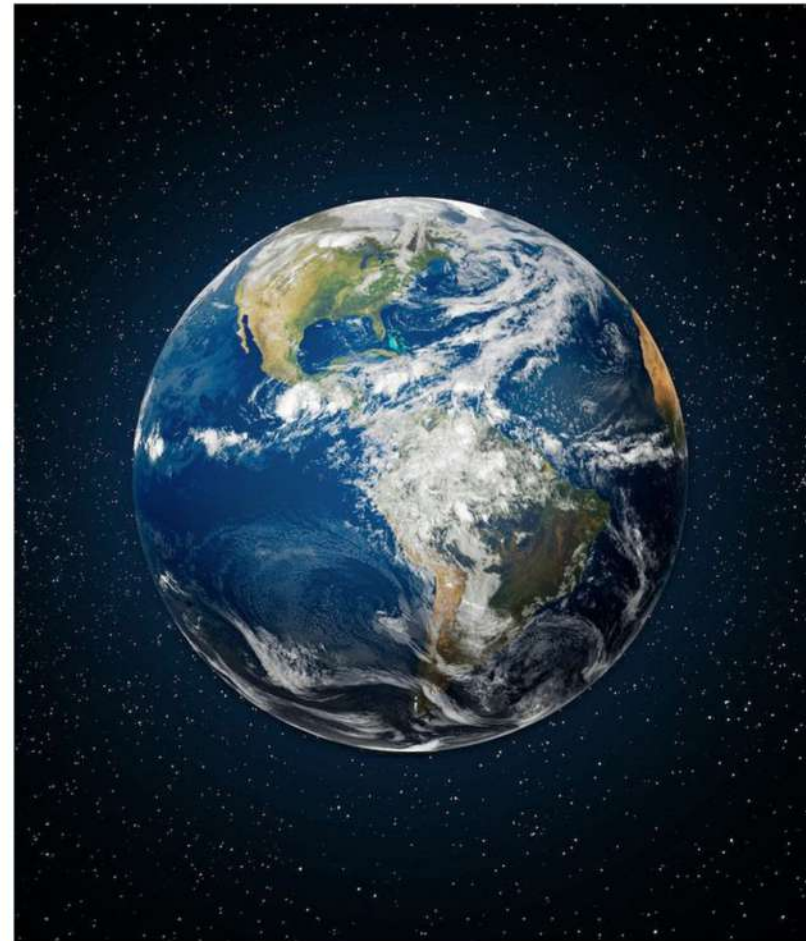

A Blue and Green Planet

Read the text and discuss the words in bold.

When **astronauts** look down from space, Earth shines like a **marble** of blue, green, and white. The blue comes from oceans, the green and brown from land, and the white from clouds. Because of all this water and color, people often call Earth “the Blue Planet.”

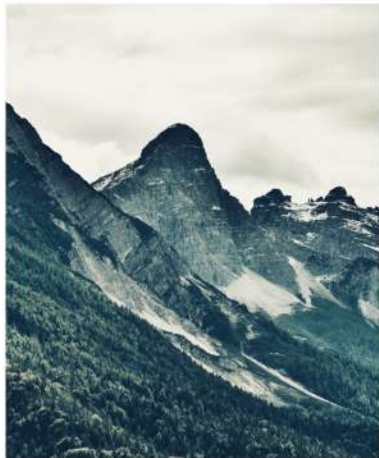

1. Do you think Earth looks beautiful compared to other planets? Why?
2. What things with color do you like seeing in nature?
3. Would you want to be an astronaut and see Earth? Why or why not?

Amazing Land to Discover

Read the text and discuss the words in bold.

Earth has many different **landscapes**, each with its own beauty. Mountains rise high into the sky, while deserts **stretch** with endless sand. Forests are filled with tall trees, and fields grow **crops** for people and animals. Wherever you go, land shapes the way life happens.

1. Which landscape do you like best: mountains, deserts, or forests? Why?
2. What is the landscape like around your the city where you live?
3. Which kind of landscape do you think is hardest for people to live in? Why?

Vocabulary

Match the vocabulary words to their definitions.

- impossible
- stretch
- crops
- depend
- survival
- ability

1. When something goes on longer than normal.
2. When something cannot be done or cannot happen.
3. Plants that people grow for food, like rice, corn, or wheat.
4. The power or skill to do something.
5. To need or trust someone or something for help.
6. Staying alive, having enough food, water, or safety.

Dialogue 1 – Earth from Space

Practice the dialogue and answer the question.

Liam: Did you see that photo of Earth from space?

Sofia: Yeah! It looked like a giant blue marble.

Liam: The clouds looked like white cotton candy.

Sofia: True! I even saw the green land.

Liam: Do you think aliens think Earth is pretty?

Sofia: For sure—they'd probably want to visit!

Question: If aliens visited Earth, what cool place should they see first?

See you next time!
