

NAME: _____ DATE: _____

DANGEROUS JOBS

1 Read and choose the correct answer.

Being a crab fisherman is one of the most dangerous jobs in the world.

Many of them work on **commercial** / **hypothermia** fishing boats in the freezing waters of Alaska.

They spend days at sea, often working in strong winds and icy rain. The cold weather can cause **salary** / **hypothermia**, which is very dangerous if not treated quickly.

Despite the risk, many people do the job because the **fatality** / **salary** can be high.

However, accidents are common, and sometimes they result in a **fatality** / **commercial**.

2 Complete the passage with the words in the box.

commercial

hypothermia

salary

fatality

Being a firefighter is a dangerous and important job. They often run into burning buildings to save people and animals.

The work can lead to injuries, and sometimes even a _____ if something goes wrong.

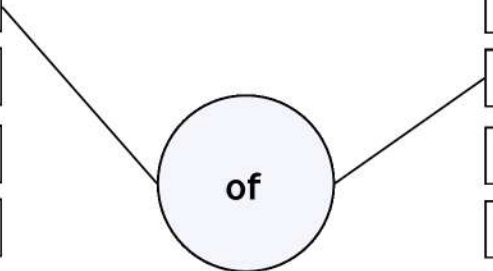

Firefighters sometimes work in very cold places, where _____ can be a risk if they stay wet for too long.

Unlike some high-paid _____ jobs, the _____ for firefighters is often not very high, but they do the job because they want to help others.
